

## Registration:

For current students of Roots & Fruits, registration shall be renewed annually in March for the following September. Registration for new families is open throughout the year provided there is space available. If no openings available, the family will be asked if they want to be placed on a waiting list, which means that when a space becomes available, the family would be contacted immediately and asked to enroll at that time.

The registration procedure is done as follows:

- Call Roots and Fruits to make an appointment for a tour with the Director
- Director gives you a tour of the physical space and describes philosophy, child/staff ratios, curriculum, child assessments, interactions with children, health and safety issues, policies, procedures, etc.
- Director and family discuss the program and family is encouraged to ask any questions or state any concerns they may have, which the director responds to.
- A registration form is completed by the family and is submitted with a NON-REFUNDABLE registration fee of \$35.00 to guarantee a space for the child in the program
- Family is given various enrollment documents, such as a Child Health Form, a Parent Handbook, Pre School/Child Care Contract, etc. which are reviewed with the family by the director.
- A start date is determined with the program director and the family.
